# Gables Hardy Hybrid Azaleas

"Showy as the Kurume azaleas, but much hardier." Horticulture.

Past experience has proved that the hardiest varieties (underlined) will thrive without protection as established plants at Boston, Buffalo, Cleveland, Detroit and Chicago. This is a district boon to those sections previously unable to successfully grow azaleas of good color range and showy flowers. Those marked with an asterisk are obtainable also in the larger sizes listed.

\*BOUDOIR—1¾" watermelon-pink flowers, dense, broad.

\*CAMEO—1½" double shell pink flowers, late.

CAMEROON—1½" deep mulberry red flowers, evergreen.

\*CAROLINE GABLE—1¾" H-in-H radiant pink flowers.

CLARET—1½" bronze red flowers.

\*CORSAGE—2½" fragrant flowers, suggestive of an orchid.

GRENADIER—1½" bright scarlet flowers.

LA LUMIERE—1½" blazing red flowers, evergreen, dense.

MARY DALTON—1½" H-in-H salmon, early.

MIRIAM—1½" profuse deep pink.

\*MILDRED MAE—2" orchid flowers, large evergreen leaves.

OLD FAITHFUL—2" rose-pink early flowers, strong grower.

ROYALTY—1½" bright purple H-in-H flowers; low, broad.

SWAN— gardenia white

Standard azaleas, back page.

# OWN-ROOT

## Hybrid Rhododendron

By propogating the old standard varieties of Hybrid Rhododendron on their own roots in quantity, not only can we sell these plants for less, but even more important, we believe these plants to have qualities of branching, hardiness and vigor superior to grafts.

As a guide to hardiness we have underlined the hardiest. Those marked with an asterisk are obtainable also in the larger size listed.

\*ALBUM GRANDIFLORUM—Blush white, tall grower.

\*CARACTACUS—Royal red. Dense medium grower.

\*CATAWBIENSE ALBUM—Purest hardy white. Pink tinge.

CHARLES BAGLEY—Cherry-red, medium grower.

ENGLISH ROSEUM—Late, clear pink.

\*GIGANTEUM—Warmest red, loose grower

IGNATIUS SARGENT—Rose red with a light throat.

LUCIFERUM — Light lavender, large trusses, tall.

\*ROSEUM ELEGANS—Rosy pink, dense medium grower.

\*ROSEUM SUPERBUM—Soft, clear pink.
